space identity

gres porcellanato smaltato  
*glazed porcelain tiles*

The intimate energy of Earth is reflected in the harmonious design of the basalt.

A natural path that Monina has turned into a new leading technological product: Space Identity. The heart of the floor and wall tiles is enriched by an original modular system composed by wood, glass and metal elements, giving rhythm to a modern environment with a remarkable visual and tactile impact.

L'intima energia della Terra viene riflessa nell'armonico disegno del basalto. Un percorso naturale che Monina ha tradotto in un nuovo prodotto tecnologico d'avanguardia: Space Identity. L'anima dei pavimenti e dei rivestimenti si arricchisce di un originale sistema modulare costituito da elementi in legno, vetro e metallo, che danno ritmo ad uno spazio di tendenza dal notevole impatto visivo e tattile.

SI is the new collection of Monina by Tagina. Not simply a new series of covering ceramic tiles, but a real furnishing system. For who loves absolute choices, the chromatic richness of black or the depth of colour, SI is the key word.

SI è la nuova collezione Monina by Tagina. Non semplicemente una nuova serie di ceramica da rivestimento, ma un vero e proprio sistema per arredare. Per chi ama le scelte assolute, la ricchezza cromatica del nero o la profondità del colore, SI è l'unica parola da conoscere.

SI means Space Identity.  
Because today a domestic,  
working or a recreational space  
is to be understood like  
an identity card, a dress that  
speaks of us. SI proposes a new  
aesthetic canon, a vibrating  
surface of polished and opaque  
contrasts and bright colours like  
a painting. SI draws surfaces  
with a special character, just like  
the one of who will choose it.

SI significa Space Identity.  
Perché anche lo spazio  
domestico, di lavoro, di svago,  
oggi va inteso come una carta  
d'identità, come un vestito  
che parla di noi; SI propone  
un nuovo canone estetico,  
una superficie vibrante  
di contrasti tra lucido e opaco  
e di tinte forti come una pittura;  
SI tratteggia superfici dal  
carattere speciale proprio come  
quello di chi la sceglierà.

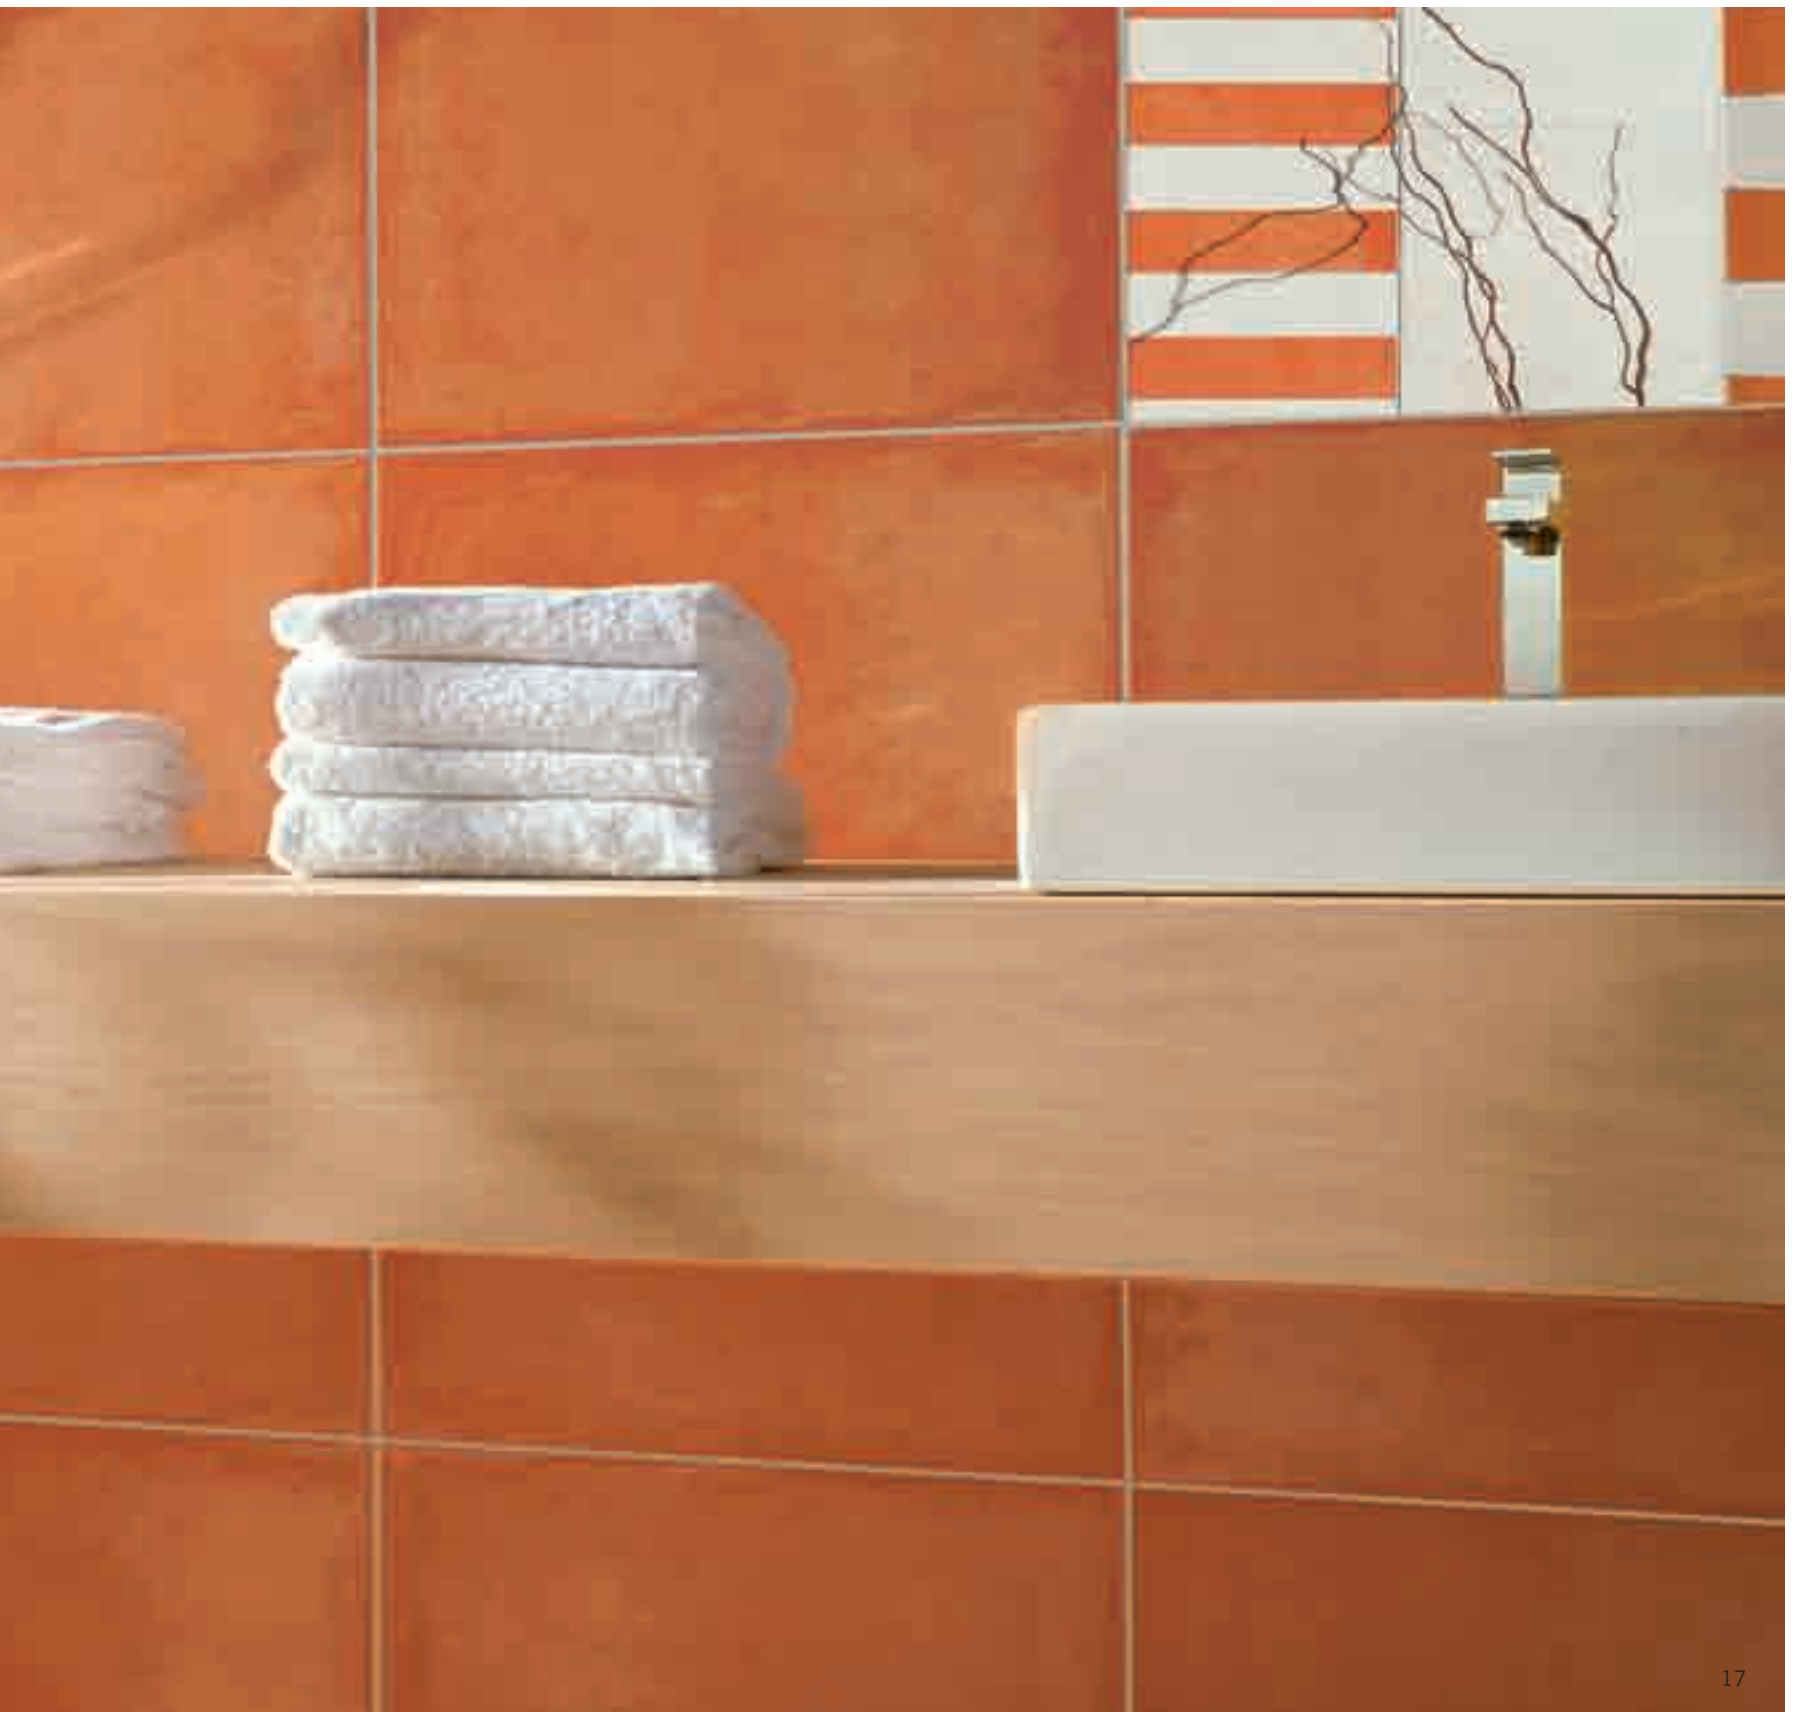

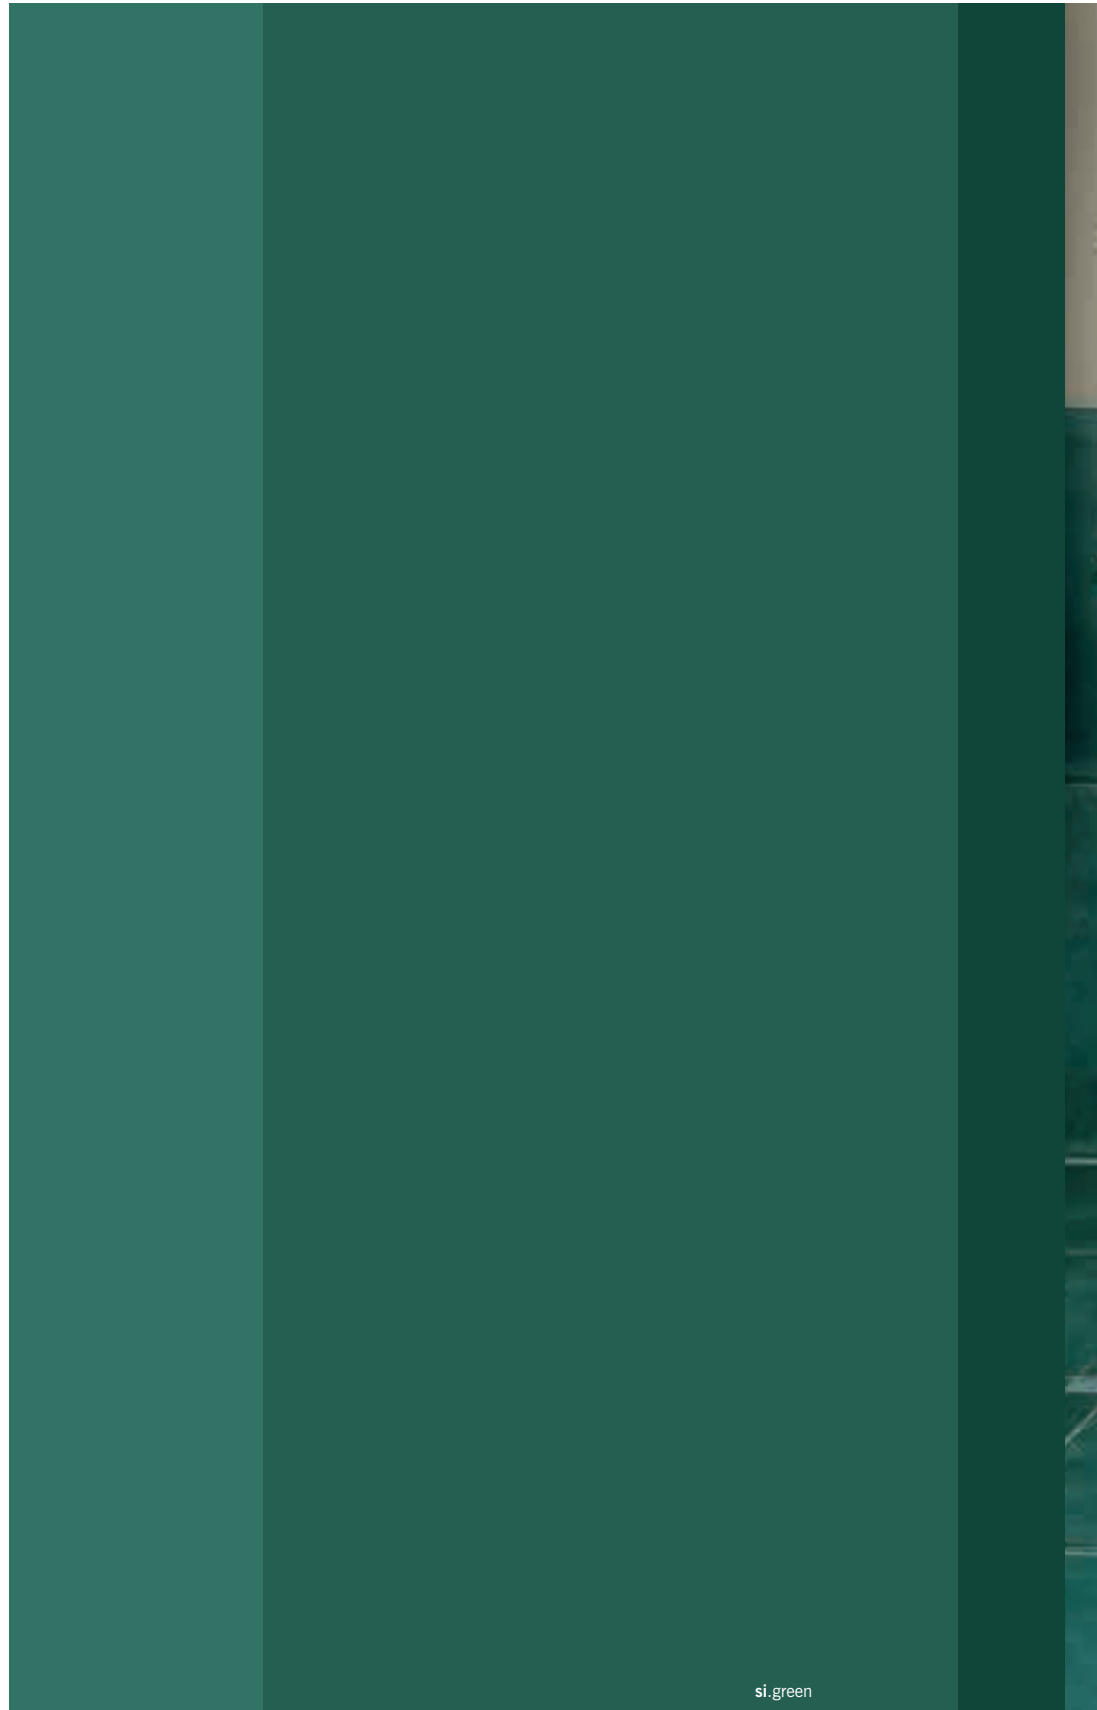

Applicable in every context, SI is a collection designed on a modular scheme able to create patterns and compositions of an original line, with amazing textures. SI is a product able to give personality to every kind of furnishing: home interiors, office, entertainment and public places.

Applicabile in ogni contesto, SI è una collezione disegnata su una griglia modulare in grado di creare disegni e composizioni dal tratto originale, texturizzazioni sorprendenti. Questo fa della collezione SI un prodotto in grado di fornire personalità a ogni tipo di arredo: home interiors, office, locali di svago e comunità.

Multisensorial and unique. SI is built like a system that, besides creating shapes and new spaces, proposes the combination between the technical surface of stoneware and the multisensoriality of noble materials like wood, glass and metal. Through this combination of design and chromatisms proposed by the materials of the SI collection, every floor, wall or environment can be imagined like a unique peerless ensemble.

Multisensoriale e unico, SI nasce come sistema e come tale oltre a creare forme e volumi nuovi, propone l'unione tra la superficie tecnica del gres e la multisensorialità di materiali nobili come il legno, il vetro e il metallo. Attraverso la combinazione del disegno e dei cromatismi proposti dai materiali della collezione SI, ogni pavimento, parete o ambiente potrà essere pensato come un insieme unico senza uguali.

Technical and aesthetic, SI is created like a new generation collection resistant as required for surfaces usable in every condition without renouncing to unique and sophisticated aesthetical characteristics that handmade products can still guarantee.

Tecnico ed estetico, SI nasce come collezione di nuova generazione, resistente come è richiesto a superfici impiegabili in ogni condizione senza rinunciare a qualità estetiche sofisticate e uniche che solo prodotti lavorati ancora manualmente riescono a garantire.

si.night

An aerial photograph of a large-scale solar farm. The image shows a grid of solar panels, with each panel having a distinct blue hue. The panels are arranged in long, parallel rows that stretch across the landscape. The sun is positioned in the upper left corner, creating a bright, hazy glow and casting long, soft shadows across the panels. The overall scene is a vast, organized expanse of renewable energy infrastructure.

An aerial photograph of a dark, textured surface, possibly a roof or a large-scale architectural element. The surface is divided into a grid of rectangular panels by thin, light-colored lines. Two prominent metal fasteners, resembling clips or brackets, are visible. One is located in the upper left quadrant, and the other is in the lower center. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the texture and the geometric layout.
